

HARSHIT KUMAR BARANWAL

Full Stack Developer | Software Engineer | Data Analyst

+91 8409805043 • harshitbaranwal116@gmail.com • linkedin.com/in/harshit-kumar-baranwal-8087b9329 • Munger, Bihar

PROFESSIONAL SUMMARY

Results-driven MCA candidate with proven full-stack development experience and a solid foundation in data analytics, cloud computing, and AI/ML. Demonstrated ability to architect and deliver production-grade web applications using modern JavaScript ecosystems (React, Node.js, Express, MongoDB). Completed internship delivering a complete food ordering platform with 15+ REST APIs within a 3-month timeline. Adept at translating complex requirements into clean, scalable code and data-driven insights. Available for immediate joining — open to remote, hybrid, and on-site opportunities.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, C, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, MySQL, Firebase

Auth & Security: JWT, Bcrypt.js, Firebase Authentication

Tools & DevOps: Git, GitHub, Docker, Postman, VS Code

Analytics : Power BI, IBM Cognos, MS Excel, SPSS

AI / ML: Machine Learning, TensorFlow, Keras, OpenCV, CNN

Design Tools: Adobe Photoshop, CorelDRAW

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern | **IT DEVELOPER** | Rourkela, Odisha

Nov 2025 – Jan 2026

- Engineered a production-ready Food Ordering System from scratch using React.js, Node.js, Express.js, and MongoDB, delivered within a 3-month internship timeline.
- Built 15+ RESTful API endpoints covering user management, menu browsing, cart operations, and order tracking with clean separation of concerns and scalable architecture.
- Implemented JWT-based authentication with Bcrypt.js password hashing to protect user accounts and sensitive order data.
- Designed fully responsive frontend interfaces using Tailwind CSS and Vite, achieving seamless UX across desktop and mobile.
- Integrated Axios for efficient client-server communication, reducing API response handling boilerplate by 40%.
- Followed Agile-style practices including iterative delivery, code reviews, and component-based architecture.

Graphic Designer (Freelance) | **Self-Employed** | Bihar

2019 – 2024

- Delivered 100+ design projects — advertising posters, corporate branding materials, and event collateral — for local businesses and printing agencies.
- Managed end-to-end client relationships from requirements gathering to final delivery using Adobe Photoshop and CorelDRAW.

KEY PROJECTS

Food Ordering System — [React.js](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [JWT](#)

- Developed a complete e-commerce-style food ordering platform with role-based access for customers and admins.
- Implemented real-time cart management, dynamic menu rendering, and secure checkout with order history tracking.

Real-Time Chat Application — [React.js](#) · [Node.js](#) · [Socket.IO](#) · [MongoDB](#)

- Built a WebSocket-powered chat platform supporting one-to-one messaging, chat history persistence, and live read receipts.
- Designed a modern, responsive UI with timestamp display and seamless message sync across browser sessions.

Plant Disease Detection System — [Python](#) · [TensorFlow](#) · [Keras](#) · [OpenCV](#)

- Trained and deployed a CNN image-classification model to detect plant diseases from leaf photographs with high accuracy.
- Built a web interface for image upload, live prediction, and treatment recommendations for identified diseases.

Smart Campus App — [React.js](#) · [Firebase](#) · [JavaScript](#)

- Developed a cross-platform campus management application for complaints, announcements, and event scheduling.
- Integrated Firebase Authentication and Firestore for real-time data sync with sub-second latency.

Personal Finance Management System — [React.js](#) · [Node.js](#) · [MongoDB](#)

- Built a full-stack finance tracker with income/expense categorization, budget alerts, and visual analytics dashboards.

Crime Record Management System — [React.js](#) · [Node.js](#) · [MongoDB](#)

- Designed and implemented a relational DBMS application for structured storage, retrieval, and reporting of criminal records.

DesignVerse – AI-Powered Design Showcase — [React.js](#) · [AI APIs](#) · [CSS](#)

- Created an interactive portfolio platform integrating AI APIs to generate design recommendations and showcase creative assets dynamically.

EDUCATION

Master of Computer Applications (MCA) Arka Jain University, Jamshedpur GPA / Score: 8.41 CGPA (~80%)	2024 – 2026
Bachelor of Arts in Economics Munger University, Bihar GPA / Score: 68%	2021 – 2024
Intermediate (12th) — BSEB Bihar Bihar School Examination Board GPA / Score: 66%	2019 – 2021
Matriculation (10th) — BSEB Bihar Bihar School Examination Board GPA / Score: 76%	2019

CERTIFICATIONS

- **Introduction to Machine Learning** — NPTEL – IIT Madras
- **Predictive Analysis using SPSS Modeler** — IBM Skills Network
- **Maximize Productivity with AI Tools** — Coursera – Google
- **Human Rights for Open Societies** — Coursera – Utrecht University
- **Moralities of Everyday Life** — Coursera – Yale University

Available for Immediate Joining · Open to Remote, Hybrid & On-Site Roles · India & Global
